DHRUV KUMAR

New Delhi | +91-9990313097 | dhruvkumar1234u@gmail.com | github.com/Dhruv8135

Full Stack Developer | AI & n8n Automation Engineer

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer and final-year B.Tech Computer Science student with hands-on experience building responsive, user-focused web applications using React.js, Tailwind CSS, HTML, CSS, and JavaScript. Proficient in Figma for UI/UX design and prototyping. Experienced in AI workflow automation using n8n and OpenAI API integration to streamline processes and reduce manual workloads. Skilled in REST API integration, cross-browser optimization, and prompt engineering to accelerate delivery and improve output quality. Seeking a Full Stack or AI Automation role to drive real business impact.

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, Python
Frameworks & Libraries: React.js, Tailwind CSS, Node.js (basic)
AI & Automation: n8n Workflow Automation, OpenAI API Integration, LLM Prompt Engineering, AI-assisted Development
Design Tools: Figma (UI/UX Design, Wireframing, Prototyping, Design Systems, Component Libraries), Canva
Concepts: Responsive Web Design, REST API Integration, UI/UX Best Practices, Cross-Browser Compatibility, Workflow Automation
Developer Tools: VS Code, Git, GitHub, Chrome DevTools

WORK EXPERIENCE

Web Development Intern | NJT Infra Pvt Ltd | New Delhi *May 2025 – Oct 2025*

- Developed and maintained 8+ responsive web interfaces using HTML, CSS, and JavaScript, improving cross-browser compatibility across Chrome, Firefox, and Safari.
- Designed UI mockups and wireframes in Figma prior to development, reducing design-to-code revision cycles by approximately 35%.
- Integrated 5+ REST APIs for backend data flow, ensuring seamless communication between frontend and server with a consistent sub-2s load time.
- Built n8n-based AI automation workflows to prototype 3 internal tools, reducing repetitive manual tasks by an estimated 40% for the team.
- Optimized page performance and UI responsiveness, contributing to a 25% improvement in average page load speed across key interfaces.

PROJECTS

Figma UI/UX Design — Portfolio & Web Components — *Personal Project*

- Designed responsive landing page layouts and reusable UI components in Figma, applying modern design principles including typography hierarchy, colour theory, and spacing systems.
- Built 10+ interactive prototypes in Figma to validate user flows before development, reducing revision cycles by over 30%.
- Created and maintained a structured Figma component library of 25+ reusable elements, ensuring visual consistency across all screens.

Smart AgriLeaf — IoT & Machine Learning System — *Academic Project*

- Designed and built a smart agriculture solution integrating IoT sensors with machine learning models for automated real-time data analysis and crop monitoring.
- Implemented Python-based data collection, processing, and automation workflows, reducing manual monitoring effort by 50%.
- Applied real-world IoT and ML concepts to address agricultural challenges, achieving 90%+ accuracy in soil moisture anomaly detection.

EDUCATION

Bachelor of Technology (B.Tech) — Computer Science Engineering *Expected: 2026*

Amity University, New Delhi

CERTIFICATIONS

- Programming Using Python — Joy of Computing (NPTEL)
- Introduction to Front-End Development — Meta (Coursera)

KEY STRENGTHS

Problem Solving | Fast Learner | Clean Code Practices | UI/UX Design | AI Workflow Automation | REST API Integration | Team Collaboration | Adaptability
